

TALENTLINK & SCOUTING PLATFORM

A Unified Co-Curricular Tracking and Talent Scouting Ecosystem for Secondary Education

System Name: TALENTLINK & SCOUTING PLATFORM
Project Context: Jane's Extracurricular Capstone Implementation
Deployment Directory: /NEW SYSTEM/
Architectural Standard: Human-Centric UI/UX, Accessible Responsive Layouts, COPPA/GDPR-K Compliance
Date of Publication: March 2026
Target User Roles: Sports Referees, Arts Adjudicators, Competition Judges, Scouts, Students, Administrators

EXECUTIVE SUMMARY & SYSTEM PURPOSE

The **TALENTLINK & Scouting Platform** bridges the gap between grassroots high school extracurricular activities and accredited athletic/creative institutions. By replacing fragmented manual records with a structured, sporty, and aesthetic digital workspace, the system empowers official feeders—**Referees** for sports, **Adjudicators** for performance rubrics, and **Judges** for festival honors—to certify student achievements directly. Extracurricular data is maintained with tamper-resistant audit logs, high-resolution video proof, and strict minor privacy guards.

1. Web Design Principles & Ethical Standards

Modern web systems must adhere to strict principles of accessibility, aesthetics, responsive hierarchy, and ethical data governance. TALENTLINK has been engineered specifically to avoid the cluttered, synthetic, and over-scrambled interfaces typical of uncurated prototypes.

Principle	Implementation in TALENTLINK Platform
Sporty & Co-Curricular Visual Feel	Vibrant athletic emerald, deep midnight slate surfaces, high-contrast typography, and energetic status badges that convey physical agility and theatrical drama.
Human-Centric UI/UX Layout	Clear role-based sectioning upon login. Each operating persona (Referee, Adjudicator, Judge, Scout) accesses an uncluttered, purpose-built workbench rather than confusing scrambled bars.
Minor Protection & COPPA Ethics	Because students are minors, personally identifiable information (PII) like phone numbers and home addresses are strictly masked. All scout inquiries are routed through school principals.
Accessibility & Typography	Strict WCAG AA contrast compliance, semantic HTML5 landmarks, clear label-to-input pairings, and readable Google Display fonts (Outfit & Plus Jakarta Sans).

2. System Sitemap & Navigation Hierarchy

The system sitemap organizes the platform into distinct, authenticated zones accessible through the master topbar navigation.

Navigation Route	Primary Scope & Feeder Function	Target Operating Persona
<code>/workspace_scout</code> Scout Talent Hub	Multi-variable candidate directory, radar skill visualization, match video player, and recruitment dispatch.	Talent Scouts, University Coaches, Academy Directors
<code>/workspace_referee</code> Referee Match Center	Log indoor and outdoor sports scores, points steppers, fouls, cards, and game film links with offline queueing.	Official Sports Referees & Match Commissioners
<code>/workspace_adjudicator</code> Adjudicator Desk	5-standard performance rubric (Tone, Diction, Rhythm, Presence, Technique) with qualitative critiques.	Official Music & Drama Festival Adjudicators
<code>/workspace_judge</code> Judge Awards Bench	Championship podium rankings, 1st/2nd/3rd medal certifications, and digital badge credential issuance.	Chief Competition Judges & Award Assessors
<code>/workspace_student</code> Student CV Portal	Certified co-curricular extracurricular portfolio, printable athletic transcript, and verified video highlights.	Student Athletes, Performers, Parents
<code>/workspace_admin</code> Admin Oversight	School node management, review and approval of incoming scout recruitment inquiries, and audit inspection.	School Principals, Extracurricular Directors

3. Activity Taxonomy & Sanctioned Categories

The TALENTLINK platform strictly structures all co-curricular activities into three distinct, standardized tiers as required by educational and sporting boards:

Tier / Category	Sanctioned Activities	Core Athletic / Artistic Focus
1. Sports (Indoor Category)	• Table Tennis (Singles & Doubles) • Badminton (Court Sets) • Lawn Tennis (Indoor Arena) • Chess (Classical & Rapid) • Basketball (Full Regulation)	Spatial anticipation, rapid reaction reflexes, agility, tactical board calculation, and explosive close-court athleticism.
2. Sports (Outdoor Category)	• Football (11-a-side pitch) • Rugby (Sevens & XV's) • Volleyball (Court/Sand) • Hockey (Field/Turf) • Athletics (Track & Field) • Handball (Team Field)	Cardiorespiratory endurance, tactical pitch positioning, physical contact toughness, sprint acceleration, and team synchronicity.
3. Music and Drama	• Choral & Solo Singing • Instrumental & Ensembles • Spoken Word & Poetry • Stage Drama & One-Act Plays • Cultural Dance & Movement	Vocal resonance, diction, rhythmic articulation, dramatic presence, emotional authenticity, and choreography execution.

4. Feeder Roles Specification (Referee, Adjudicator, Judge)

To ensure verifiable truth, TALENTLINK enforces strict separation of evaluation duties through three dedicated feeder roles:

Official Feeder Role	Primary Domain	Input Methods & Verified Deliverables
Referee (Sports Feeder)	Indoor & Outdoor Sports	• Match scoreline entry with real-time +/- steppers • Disciplinary logging (Yellow/Red cards, personal fouls) • Game MVP nomination • Direct upload or linking of verified match game film
Adjudicator (Music/Drama Feeder)	Music and Drama	• Standardized 100-pt rubric grading across 5 standards: - Vocal Tone & Resonance (20 pts) - Diction & Text Delivery (20 pts) - Rhythm & Tempo Pacing (20 pts) - Stage Presence (20 pts) - Artistic Technical Precision (20 pts) • Time-stamped qualitative critique remarks • Performance video clip attachment
Judge (Music/Drama Awards)	Music and Drama	• Championship rankings: 1st Place (Gold), 2nd (Silver), 3rd (Bronze) • Issuance of formal judicial citations for artistic merit • Triggers verifiable digital credentials on student profiles

5. Talent Scouting & Minor Data Protection Workflow

The scouting module facilitates recruitment while adhering strictly to international minor protection regulations (COPPA & GDPR-K).

End-to-End Outreach Protocol:

- 1. Multi-Criteria Discovery:** Scouts filter candidates by discipline (Indoor Sports, Outdoor Sports, Drama), age brackets (14–16, 16–18), overall rating (0–100), and specific skill tags.
- 2. Verified Evidence Review:** Scouts review the student's radar chart, cumulative stats, and watch verified 1080p performance clips certified by official referees or adjudicators.
- 3. Mediated Outreach Dispatch:** Scouts initiate an outreach inquiry detailing the scholarship or academy pathway. At no point is direct personal contact information (phone, address) revealed.
- 4. Principal Authorization:** The inquiry appears in the school principal's administrative oversight portal for formal institutional approval and parental coordination.

6. Software Components & Implementation Architecture

The platform has been implemented entirely within the /NEW SYSTEM/ directory as a modular, high-performance web application:

Component File	Technology	Architectural Purpose & Responsibility
index.html	HTML5 Semantic	Master layout structure, responsive navigation, dedicated workspace sections, and accessible dialog modals.
css/style.css	Modern Vanilla CSS3	Athletic color tokens, responsive grid/flexbox layouts, card elevations, steppers, and interactive video player frames.
js/data.js	JavaScript (ES6+)	Domain models, category taxonomy, certified student profiles, historical audit logs, and rubric definitions.
js/app.js	JavaScript (ES6+)	Reactive state management, role switching, dynamic filtering, rubric point calculations, and form validation.
generate_presentation.py	Python / python-pptx	Generates the official 12-slide presentation (.pptx) detailing system architecture and workflows.
generate_documentation.py	Python / ReportLab	Compiles the complete technical specification and prototype manual into a publication-ready PDF.

7. Prototype Verification & Acceptance Criteria

The system has been verified against all specified requirements:

- ✓ **Sporty & Co-Curricular Feel:** High visual polish, clean cards, authentic athletic color palette, eliminating artificial AI clutter.
- ✓ **Organized Logged-In Sections:** Dedicated workspaces for Referee, Adjudicator, Judge, Scout, Student, and Principal.
- ✓ **All Required Indoor Sports:** Table Tennis, Badminton, Lawn Tennis, Chess, Basketball.
- ✓ **All Required Outdoor Sports:** Football, Rugby, Volleyball, Hockey, Athletics, Handball.
- ✓ **Complete Music & Drama Arts:** Choral/Solo Singing, Instrumental, Spoken Word/Poetry, Stage Drama, Cultural Dance.

- ✓ **Official Feeders:** Separate and authenticated Referee, Adjudicator, and Judge recording interfaces.
- ✓ **Deliverables:** Working web application in /NEW SYSTEM/, PowerPoint presentation (.pptx), and System PDF Guide (.pdf).
